

LUXAFE

candy coloured playground surfacing

A designer's dream product

LUXAFE - fully coloured EPDM rubber

Luxafe delivers unrivalled **visual appeal** through the **striking range** of bright candy colours. Bring surfaces to life while providing excellent impact absorbing safety.

Colour Options

* UV Brights

Features

- Luxafe is a complete system, guaranteeing compliance to Australian safety requirements in any application.
- 18 vibrant colours available, including four high-bright ultra-violet resistant, all formulated of the highest quality EPDM for excellent longevity.
- Endless possibilities to design and create unique patterns and shapes with the poured in place top layer.

Benefits

- Provides a safe, soft and non-slip surface that is child-friendly and cushions the blow of impact should they slip or fall off playground equipment.
- A1 Rubber calculate and provide the necessary components to meet the thickness safety requirements.
- The finished surface is seamless and firm, but porous and elastic, allowing water to drain and not pool in low spots.

Product Specifications

Luxafe has been tested for non-slip properties, UV resistance and critical fall heights. System thicknesses are determined by the critical fall height rating needed in accordance with Australian Standards.
