

DATA SHEET

Effective November 1, 2011

Product Overview

SoftFill is used in conjunction with sand at 50/50 ratio by volume. It is a Horse Arena Footing System that will reduce maintenance and enhance performance.

SoftFill significantly reduces dust and mud, will not breed or attract insects and will not rot or mould. Horses will move better, freer, with more relaxation, length of stride and suspension when you use SoftFill in your Horse Arena.

SoftFill can help reduce the destruction of horse's bones, joints and soft tissue. Softfill will help the sand retain moisture, is non-toxic, not slippery and will not deteriorate from water absorption. SoftFill will not wash away, will absorb impact in case of a fall, and is metal and glass free.

Specifications

Material Rubber derived from tyre recycling

Particle Size 8-15mm granule

Pack Size 25kg or 800kg bulk bag

Applications

SoftFill is used in horse arenas mixed with sand as a shock absorber.

Disclaimer

The above information is derived from periodic tests taken on actual product from the manufacturing process. Some variances in specifications and raw surface appearances are possible due to the use of recycled materials and our manufacturing tolerances. In practice, the difference in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The recommendation relating to the application and end use of A1 Rubbers products, are given in good faith, based on A1 Rubbers current knowledge and experience of the product when properly stored, handled and applied under normal conditions in accordance with A1 Rubbers recommendations. The user of the product must test the product's suitability for intended application and purpose. A1 Rubber reserves the right to change the properties and tolerances of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current Terms and Conditions of Sales and delivery. Users must refer to the most recent issue of the Technical Data Sheet for the product concerned, copies of which will be supplied on request.
